**Total by activity**

- Water: 1119,148
- Handpump: 213,495
- Sanitation: 120,634
- Access: 140,507
- Flood protection: 19,570
- Mapping/survey: 64,236
- Municipal support: 19,990
- Relief: 160,000
- Community forum: 52,607
- Total per City: 910,187
The relative calm enjoyed by many residents during the summer encouraged many families as In several areas that were until recently at the frontline of hostilities, local representatives have taken the initiative to form work safety. The ongoing Neighbourhood Action families included:

- to return to their homes and begin repairs.
- repairs to or upgrading of pedestrian access stairs on six
- upgrading of priority secondary roads which are prone to flooding
- repairs to three essential small bridges, to provide access to much-needed markets
- construction of twenty collection points for solid waste
- cleaning and repairing of drainage channels and culverts
- repairs to war-affected primary infrastructure will also be important
- repairs to or upgrading of priority secondary roads which are prone to flooding
- repairs to over one dod of housing

In addition to population surveys in right district, a comprehensive survey of damage to housing and basic infrastructure was undertaken between July and November, in collaboration with community representatives. The results of the survey are now being collated and mapped prior to distribution to operational agencies and technical authorities. It is hoped that this information will assist organisations in planning rehabilitation activities.

In order to address the underlying issues of urban recovery, a workshop held in Kabul in September (with support from UNDP and NRC/IFRC) was attended by representatives of the principal agencies and technical institutions working in the city. The aim was to develop an understanding of the linkages between indigenous and urban communities, as a means of developing more effective approaches to urban rehabilitation.

With the advent of winter to Kabul, field staff have resumed the distribution of emergency shelter materials to those directly affected by the conflict. Since the programme was resumed, materials have been distributed through community representatives to some 20,000 families in inhabited districts of the city. In addition, materials have been supplied through to some 120 operational schools. These activities have enjoyed the support of NRC/IFRC, ODA (UK) and UNHCR.

Rehabilitation
(January - December)
